HOW TO PLAY SUPER SQUARES BIG GRID

Prizes are based on a 400-Square BIG GRID

Squares were assigned by random drawing.

The BIG GRID covers all of the scoring possibilities from 0 - 60

If a score exceeds 60, 59 will be subtracted from the actual score, ie: 63 - 21. Subtract 59 from 63 making

Final Score: 4 (winner) - 21 (loser)

Winners will have exact scores. Each square has 9 scoring combinations. The score after extra points(s) conversion is used.

Tied score after the end of the 4th Quarter: \$10,000 prize will be split: \$5,000 to the tied score square and \$5,000 to the Final Overtime Score. Reverse is paid to Reverse Final Score

\$11,200 TOUCH UPS

Sixteen (16) \$700 Prizes will be awarded to the four (4) squares that are touching the winning 1st Quarter, Halftime, 3rd Quarter & Final Score Squares. Actual Score, not Reverse Score.
